

KeepVid - Taking Video out of YouTube

To rip a video out of YouTube it is best to extract the video and save as an Mp4 file for video, Mp3 file for audio

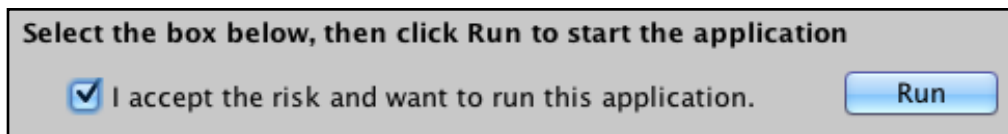

- When you have found the video on YouTube, Copy the URL
- Open Safari
- Go to keepvid.com

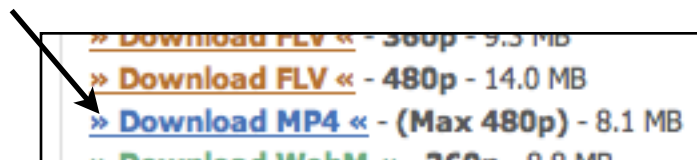

- Paste the URL into KeepVid
- Click on DownLoad
- You may see the following Security Warning

- Click "I accept..... and then Click Run

- Choose Download mp4 for video or mp3 for audio

- Go to the Downloads folder
- Drag the mp4 or mp3 file to your desktop
- Then you have it accessible to drop into any application
